## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of Claim Group I, Claims 1-13 and 15-17, formula I and R and R' to be the alkenyl group in the reply filed on 12/5/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). The claims that read on the above elected invention and species are 1-4, 8, 10, 11, 13, 15 and 17 and therefore claims 5-7, 9, 12 and 16 are withdrawn from consideration as being drawn to a non-elected species and claims 14 and 18 are withdrawn from consideration as being drawn to a non-elected invention.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 recites the limitations "the cyclic carbonate" and "the linear carbonate" in line 2 of the claim. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 8, 10, 11, 13, 15 and 17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the JPO Machine Translation for JP 11-329494 A (as provided by applicants with the IDS filed 12/10/03).

See paragraphs 1, 5-18, and 26-32 of the machine translation of the reference.
